

5. The World's 100 Greatest Headlines

Now you can write profit-pulling headlines that grab attention in just minutes using 100 of the world's greatest headlines as your guide!...

It's true - think about it.

"...75% of the buying decisions are made at the headline alone." ~John Caples, quote from his book Tested Advertising Methods

"On the average, 5 times as many people read the headlines as read the body copy. It follows that, unless your headline sells your product, you have wasted 90% of your money." ~ David Ogilvy, world famous advertising executive, author of the most influential books on advertising Confessions of an Advertising Man, and Ogilvy on Advertising

Headlines give you the most leverage in creating ads, sales letters, and website copy to maximize your results.

Think of it this way...

"Your Headline Is An Ad For Your Ad"

Here's a very valuable tool for you to use time and time again to create your own winning headlines.

By using this simple tool, you'll learn how to write compelling and order-producing headlines by using some of the best-selling headlines of all time as your guide to writing great headlines of your own.

Here's a classic headline example:

How To **Win Friends** And **Influence People**

Using the benefits of your product or service, simply replace the yellow highlighted part of the classic headline with your own benefits and instantly you've got a great headline.

Use these 100 classic headlines as your guide to writing headlines, sub-headlines, bullets and pre-headlines for your ads, sales letters, and websites.

Test, Test, Test...

Select the ones you think are the top ten headlines from the one hundred you create and begin testing with your target audience and track the results you get. You will find that one headline will outperform another 2, 3, 5 and 10 times better than the other, then take the winning headline and test another one against it.

You can pick another ten and do the same, again and again, until you've found the 'one in a hundred headline' that outpulls all the others by many times.

Think of all the extra profits this could mean for the same expenditure of time, effort and costs of promoting your product, service or business.

Running A Split Test

You could split your list into fourths, and keeping the other parts of your offer the same, send a different headline to each fourth of your list to see which of the four headlines pull best (leads, orders, visits, etc.). Then let the 'winner' headline be your 'control' to test other headlines against.

Always. always, always test your headlines. It is where you have the most leverage in your ads, sales letters, and website copy to maximize your results.
